

The Facts

Stampede Meat, Inc. - Center of the Plate Specialists

**We supply over 100
customers with over
500 different value-added
meat items.**

Who we are ...

Stampede Meat was founded in 1995 by the Joseph Ligas Sr. family with a few other long-time co-workers from Rymer Foods. The company started from nothing and today has current sales of over \$250 million to restaurant chains, retailers, club stores, foodservice distributors, cruise lines, casinos, home delivery and other segments of the food industry. Of our 750 employees, approximately 260 have been with Stampede for at least five years, and 100 have been with Stampede for at least 10 years.

What we do ...

Custom and branded center-of-the-plate value added proteins: Beef and Pork. Black Angus, Choice, Select, No Roll and Commercial grades. Bone-in and boneless. Flavored or not. Steaks and chops, breaded or not. Fajitas and tips, roasts to chuck hamburger patties and more.

How we do it ...

In September of 2003, we completed and moved into a brand new 140,000 square foot ready-to-cook facility. Complete with the latest in food safety design – stainless steel drains and walls, above-ceiling concealed utilities and state-of-the-art air temperature monitoring. Super quick blast freezing, highly flexible production lines, lighting twice as bright as USDA requires. All ready-to-cook materials go through an antimicrobial intervention step which eliminates 99% of E. coli. A wide variety of products are cooked in-bag at our separate facility, 7 miles away.
